ABOUT THE CSI: STEM – JUNIOR POLICE ACADEMY TECHNOLOGY SUMMER CAMP:

Mission Statement:

CSI: STEM Summer Camp is trademarked and developed by the Broward County Crime Commission in cooperation with *US Public Safety and Management*.

Its Mission is to instruct and motivate children of the great things they can (and should) achieve in life as future leaders and innovators, versus different obstacles in society that can detour children down the wrong path towards a life of crime. The camp will encompass four facets:

1. Law Enforcement/Criminal Justice Based Instruction
2. Leadership, Self – Esteem and Confidence Building
3. Theoretical and Conceptual Science Projects that Relate to Real World Situations
4. Field Trips to Public Safety, Criminal Justice and Environmental Venues Associated with Camp Modules and Camp Subject Matter

Ferguson, Missouri:

As a response to community tensions in Ferguson, Missouri, the Broward County Crime Commission felt compelled to better educate the youth of Broward County about the Criminal Justice System, and enhance public safety/community relations, so that future incidents such as Ferguson, Missouri, do not occur.

Objective:

For camp attendees to receive insight about how legislative bodies derive laws, how bills are passed into law, and how laws are enforced and prosecuted for the public safety of the community. Attendees will also learn police officer training and the professional standards. Moreover, camp attendees will learn how courtroom procedure takes place in defense of an accused crime, while having fun.

A strong emphasis of the camp will be devoted to anti-bullying, self esteem building, confidence course challenges, and role playing sessions to stay away from drugs. Finally, camp attendees will immerse themselves with fun and engaging Science, Technology, Engineering and Math (STEM) projects associated with real life situations, so that attendees can be inspired to make a difference in the world!
